About Ho Math and Chess

Ho Math and Chess has been tutoring students since 1995 and there are currently over 30 locations worldwide using Ho math and chess workbooks. Elementary school aged children use puzzle-like patented workbooks to learn math through spatial relations, table look-ups, sorting, classifying, comparing, and analyzing patterns. Chess is also taught not only for fun, but as a way to help students develop the skills to focus, concentrate, memorize and plan. All class sizes are kept small and are taught by instructors that are certified math teachers or highly qualified and experienced.

Students will GAIN

- **Confidence** – through achievement of prescribed learning goals
- **Focus** – through clearing up concepts studied at school
- **Self discipline** – through learning study skills and setting up routines
- **Fun** – chess provides stimulating mental entertainment

Summer promotion(July & August)

| Number of Sessions per week | Discount* |
|-----------------------------|-----------|
| 2 Sessions/ week | 5% Off |
| 3 Sessions/ week | 7.5% Off |
